EDUCATION

Northeastern University, Boston, USA Jan 2023 - Apr 2025
Master of Science in Computer Science GPA: 3.8 / 4.0
Courses: Programming Design Paradigm, Algorithms, Web Technology, Machine Learning, Cloud Computing, Artificial Intelligence.

CHARUSAT University, Gujarat, India Jun 2018 - May 2022
Bachelor of Technology in Computer Engineering GPA: 3.8 / 4.0
Courses: Software Engineering, Analysis of Algorithms, Operating Systems, Data Structures, Cloud Computing, Database Management System.

TECHNICAL SKILLS

Programming Languages: Java, R, Python, C++, JavaScript, PHP, C, C#
Fundamental Concepts: Data Structures and Algorithms, Design Patterns, OOP Concepts, RESTful APIs
Databases: MySQL, PostgreSQL, MongoDB, Firebase, CouchDB, Elasticsearch
Frameworks: React, React Native, Spring Boot, Spring Security, Node, jQuery, Bootstrap, TypeScript
Miscellaneous: AWS, HTML5, CSS, Git, Adobe (XD), Postman, Android Studio, VS Code, IntelliJ, RStudio

WORK EXPERIENCE

Northeastern University, Boston, MA Sep 2023 - Apr 2024
Graduate Teaching Assistant | *Programming with Data, Python, Spyder*

- Collaborating with distinguished professors to develop interactive assignments covering topics such as **Dictionaries**, **Pandas**, **NumPy**, **Machine Learning**, and **NLP**, including development of evaluation criteria.
- Guiding a class of over 500 students in building and troubleshooting solutions with Programming with Data (DS 2000).
- Holding office hours, conducting thorough grading and reviewing code, providing valuable feedback to support student growth.
- Conducted **Economics** and **Biomedical** lab sessions, each accommodating 25 students.

Inficube Technolabs Private Limited, Gujarat, India Apr 2022 - Nov 2022
Software Engineer | *React Native, Java, Spring Boot, RESTAPI*

- Maintained cross-platform mobile applications with React Native, achieving a user base growth of 40% within six months.
- Optimized application performance through the strategic use of **Spring Transaction management** and **database tuning**, enhancing the user experience and reducing server load. Also, implemented **JWT Token** authentication.

Software Engineer Intern | *React Native, JavaScript, Node.js* Dec 2021 - Apr 2022

- Designed and executed visually appealing user interfaces with engaging animations and seamless navigation using **React Native**.
- Integrated **APIs** to streamline data retrieval, also achieved a 30% reduction in UI loading time through optimization techniques.
- Developed OAuth2.0 and OpenID connect Authorization functionality to implement secure flow of application using **Node.js**.

Zenerva Software LLP, Gujarat, India Jun 2021 - Aug 2021
Web Application Developer Intern | *HTML, CSS, JavaScript, PHP*

- Enhanced user interface of an existing website by updating and improving **HTML**, **CSS**, **JavaScript** and **Bootstrap** elements.
- Implemented **WebSocket**, **WebRTC** and real-time chat functionalities, resulting in 20% increment in engagement.
- Collaborated within an **Agile** development environment to ensure streamlined project management and iterative development.

PROJECTS

Financial Portfolio Tracker | *MERN Stack* Nov 2023 - Dec 2023

- Developed a scalable system using **CQRS** architecture and Gateway design, managing real-time data across 100+ assets via Tingo.
- Empowered 4+ user roles using **React**, **Redux**, and **MaterialUI** by creating responsive and reusable UI codebases.

Image Manipulation & Enhancement | *Java, Swing, Object-Oriented Design* Mar 2023 - Apr 2023

- Crafted a GUI-based image editor in **JavaFX**, accomplishing a blend of **MVC architecture**, **design patterns**, and adherence to **SOLID** principles. Assured stable performance by handling and resolving over 94% of error cases.
- Tested the system leveraging Test Driven Development Methodology to ensure intended behavior with >80% test coverage.

Variya Association Application | *React Native, Spring Boot, MySQL, Postman* Dec 2020 - Apr 2021

- Constructed a robust Cross-platform application in React Native for thriving community of over 5000 members, integrating features such as comprehensive community member profiles, event details, and an engaging photo gallery.
- Architected a **RESTful API** using Spring Boot and **Maven** and implemented secure authentication with <2000ms response time.

Inventory Management System | *Java, XML, Android Studio, Firebase* Sep 2020 - Dec 2020

- Spearheaded an end-to-end development of an advanced inventory management system using Android Studio, **Java**, and **Firebase**.
- Build an intuitive and user-friendly front-end interface using **XML** to facilitate efficient viewing and updating of warehouse goods, employee details, and comprehensive buying/selling history.

Quizwise | *PHP, HTML, CSS, Bootstrap, MySQL* Jun 2020 - Aug 2020

- Developed Quizwise using **XAMPP** Server, an interactive platform for students to take quizzes and teachers to create them.
- Performed real-time question rendering using **PHP** and **MySQL**, resulting in a notable 30% increase in user engagement.

LEADERSHIP & VOLUNTEERING

- Contributed as a member, mentor and event organizer at Computer Society of India in Undergraduate.
